

OUR MACHINES FOR
ANIMAL FEED SECTOR

ABOUT US

We, at Align Industry, focus on manufacturing and providing premium-grade machines for poultry & cattle sector that are trusted by professionals.

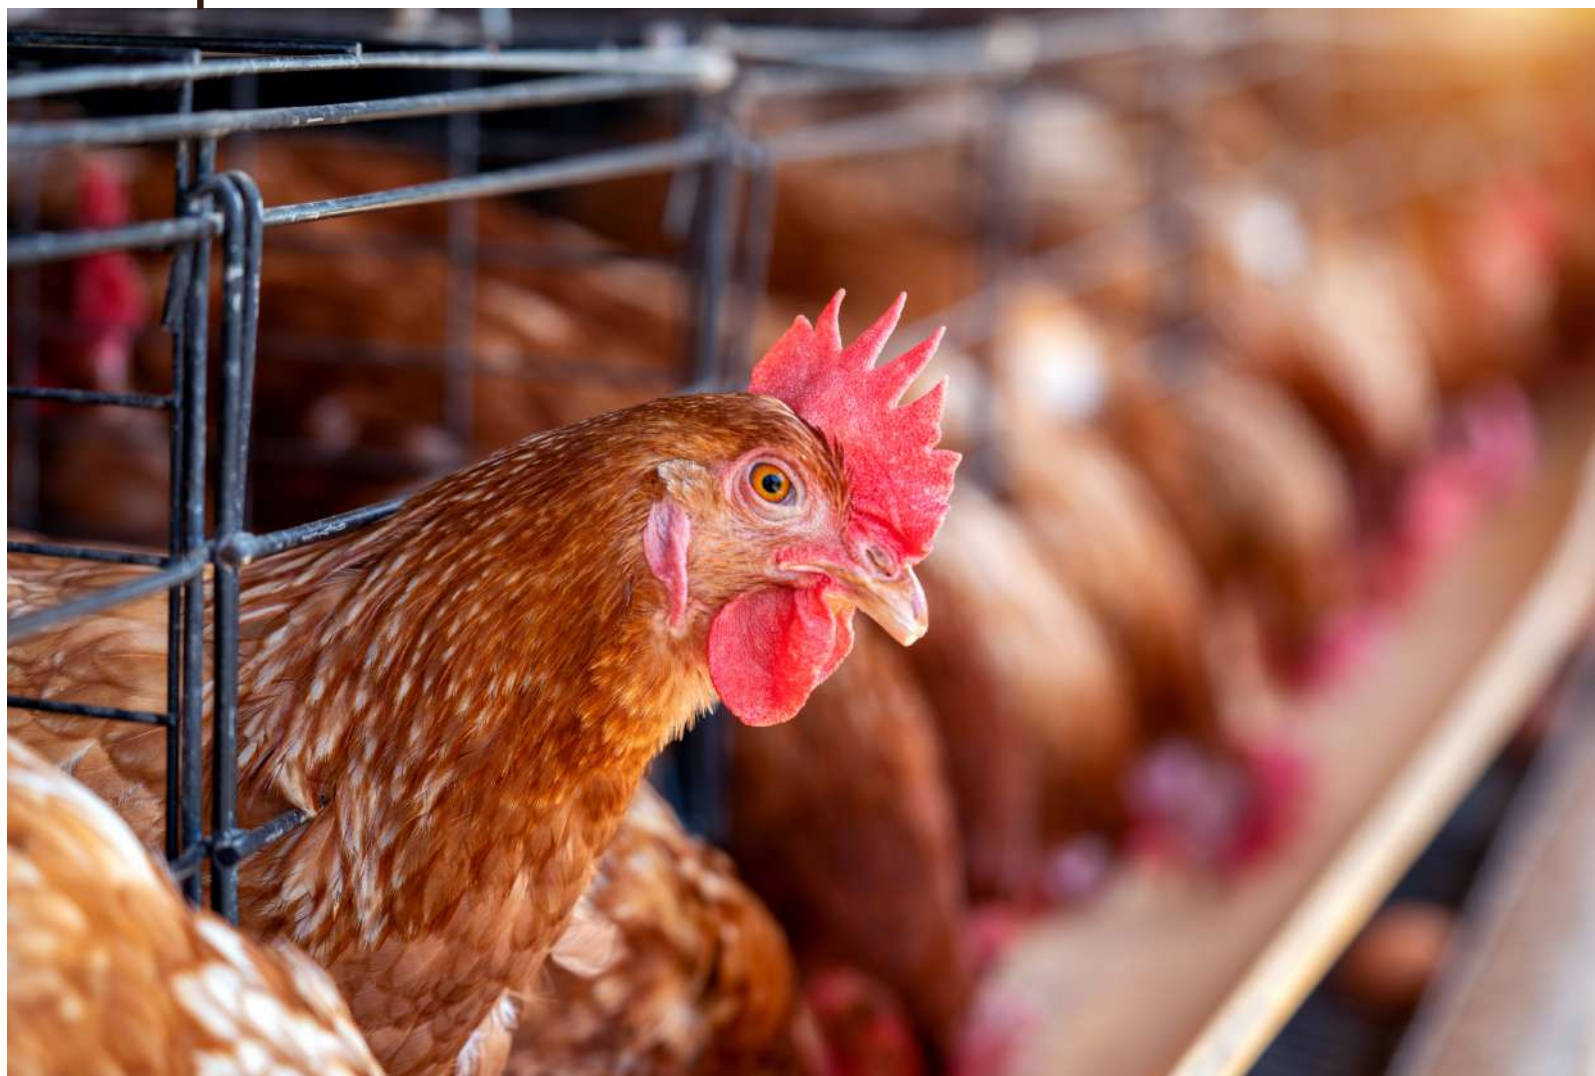

Align Industry was established in 2014 at MIDC, Satpur, Nashik, by Mr. Chetan Pawar, a Chemical Engineer who has the experience and vision to manufacture different types of machineries required by the poultry, cattle feed industry. Align Industry is equipped with latest technology machinery. We have experienced technical team. We believe that process is very important to manufacture quality machinery and we always strive to follow the best process.

● CATTLE FEED PLANT:

Cattle Feed Plants are used to prepare Feed for Cattle, Buffaloes, Cows, Horses etc. 'Align Industry' manufacture superior quality cattle feed plants. Our production ranges from **500 Kg to 2 tonne per hour**. We manufacture Manual, Automatic, Fully Semi Automatic Cattle Feed Plants. We design & develop plants as per client requirement for the overall development and growth of our customer.

● POULTRY FEED PLANT:

Poultry Feed Plants are used to prepare feed for Hens, Broilers, Chicks, Poultry etc. We manufacture Horizontal, Semi Vertical, Vertical Poultry feed Plant. Our production range is from **300 Kg to 2 tonne per hour**. We also manufacture customization plants for the overall growth of our customer.

Full Circle Hammer Mill

FEATURES:

1. High-speed rotating hammers
2. Ideal for lightweight components
3. Sturdy construction

Model	Power	Capacity Kg/Hr on Mixed Feed Grinding		
	HP	4mm	5mm	6mm
AIFC-001	10-15	2500	4000	5500
AIFC-002	15-20	3200	4500	6800
AIFC-003	20-40	6500	8500	11000
AIFC-004	50-75	8000	10000	13000

Half Circle Hammer Mill

FEATURES:

1. Low Operational Cost
2. Time Efficient
3. Efficient grinding

Model	Power	Capacity Kg/Hr on Mixed Feed Grinding		
	HP	4mm	5mm	6mm
AIHC-001	3	250	500	650
AIHC-002	5	800	1500	2000
AIHC-003	10	2000	3000	4000
AIHC-004	15	2500	3500	5800

Pulverizer

FEATURES:

1. Easy Maintenance
2. Application Specific Design
3. Rigid Construction

Model	Power HP	Capacity Kg/Hr on Mixed Feed Grinding		
		Maize	Rice	Rice Husk
AIP-001	20	1000-2500	1500-2500	400-1000
AIP-002	30	2000-3500	2800-3500	700-2200
AIP-003	40	3000-5000	3500-5000	1000-2900
AIP-004	50	4000-6000	4800-6000	1200-3500
AIP-005	75	5000-8000	5900-8000	1900-5500

Ribbon Mixer

FEATURES:

1. Optimized Triple Mixing
2. Compact Headroom Design
3. Peak Mixing Efficiency

Model	Power HP	Capacity
		Kg/Hr
AIRM-001	5	1000-1500
AIRM-002	7.5	2000-3000
AIRM-003	12	3000-4500
AIRM-004	15	4000-6000
AIRM-005	25	6000-9000
AIRM-006	30	8000-12000

Double Shaft Mixer

FEATURES:

1. Quick Mixing
2. Recurring Mixing Procedures
3. Effortless Mixing with Auto Load/Unload

Model	Power	Capacity
	HP	Kg/Hr
AIDSM-001	20	7000-10000
AIDSM-002	40	14000-20000

Vertical Pellet Mill

FEATURES:

1. No foundation required
2. Very less installation time
3. Less operating manpower

Model	Power	Capacity*
	HP	Kg/Hr
AIVPM-001	25	500-700
AIVPM-002	50	1000-1500
AIVPM-003	75	2000-2500

Potent Pellet Mill

FEATURES:

1. Consistent pellet quality ensures
2. Reduced labour and operational costs
3. Energy-efficient design

Model	Power	Capacity*
	HP	Kg/Hr
AIPPM-001	3	50-100
AIPPM-002	5	100-200
AIPPM-003	7.5	200-300
AIPPM-004	10	300-400
AIPPM-005	15	400-500

Vibro Sieve

FEATURES:

1. Compact structure
2. Adjustable vibrating and low noise.
3. Low power consumption

Model	Power	Capacity
	HP	Kg/Hr
AIVS-001	1	1000
AIVS-002	2	2000
AIVS-003	3	5000

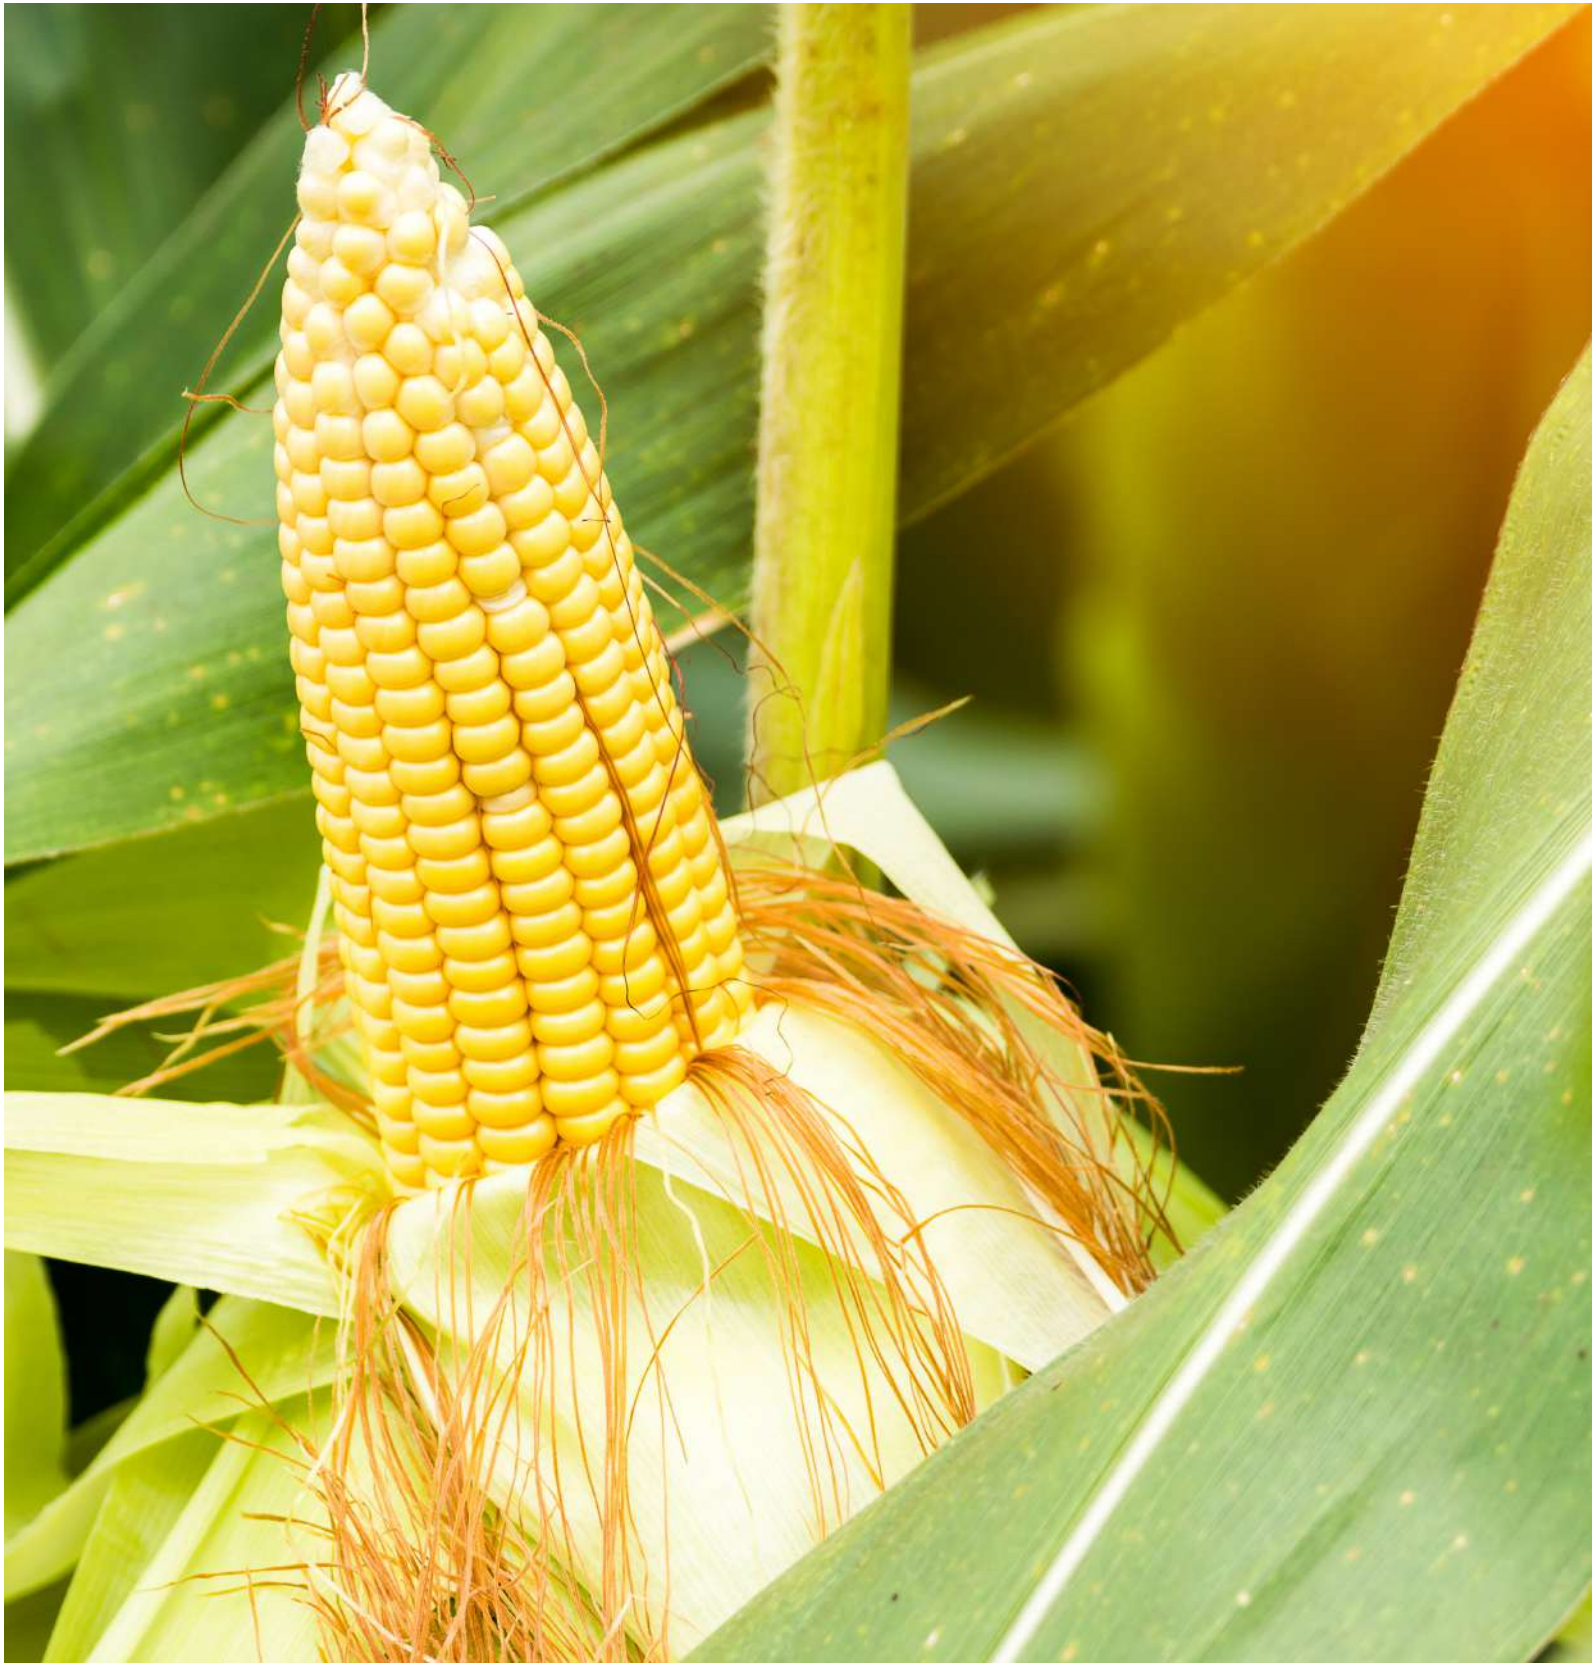

Crumbler Machine

FEATURES:

1. Specific adjustment of sizes of crumbs
2. Durable with long life of parts
3. Compact structure, stable performance

Model	Power	Capacity
	HP	Kg/Hr
AICM-001	5	2000
AICM-002	7.5	4000
AICM-003	10	8000
AICM-004	15	12000

WE ALSO PROVIDE QUALITY MACHINES FOR DIFFERENT SECTORS LIKE:

Bakery

Dairy

Pharmaceutical

F : 33, MIDC, Satpur Colony,
Nashik, Maharashtra 422007
